

PVC CARDS WITH WRITABLE BACK

Print and write on the same card

With a writing panel on the back, those cards allow you to sign or write directly on printed cards. On the front the surface is in PVC and you can print with your card printer. On the back, you can handwrite thanks to a special surface.

ADVANTAGES

As you can write directly on it, PVC card with writable back is an easy way to personalize your cards. For example, you can print your business cards on this kind of support and then write something to your interlocutor at the back.

Tested and validated by Evolis R&D and Quality departments, these consumables bring you printing quality and reliability.
